CONTENTS OF VOLUME 20

No. 1, March 1993

Editorial 1

Spinal decompression sickness: hydrophobic protein and lamellar bodies in spinal tissue
B. A. Hills 3

Effect of treatment with Pluronic F-68 during continuous venous air embolism in swine
B. M. Jennsen, A. Vik, and *A. O. Brubakk* 17

Alveolar gas exchange during simulated breath-hold diving to 20 m
M. H. Linér, M. Ferrigno, and *C. E. G. Lundgren* 27

Effect of hyperbaric and normobaric oxygen on pulmonary endothelial cell function
M. C. Allen and *S. J. Watt* 39

Relationship between the event-related brain potential P300 and inert gas narcosis
B. Fowler, R. Hamel, and *A-E. Lindeis* 49

Technical Communication

Computer simulation of counterlungs
S. P. Tomlinson, J Livesey, D. G. Tilley, and *I. Himmens* 63

Letter to the Editor: Changes in frequency of R-plasmid transport in high pressure
V. K. Ilyin, A. N. Victorov, Z. O. Solovjova, N. Kornjushenkova, B. N. Pavlov, and *V. A. Dmitrijev* 75

Book Review: *Field guide for the diver-medic* 79

Abstracts
From current literature 81
French translations 91
Spanish translations 97

No. 2, June 1993

Bubble-induced aggregation of platelets: effects of gas species, protein, and decompression
T. Thorsen, H. Klausen, R. T. Lie, and *H. Holmsen* 101

Arterial gas bubbles after decompression in pigs with patent foramen ovale
A. Vik, B. M. Jenssen, and *A.-O. Brubakk* 121

Clinical Communications

Effect of severity, time to recompression with oxygen, and re-treatment on outcome in forty-nine cases of spinal cord decompression sickness
R. Ball 133

Oxy-helium treatment of severe spinal decompression sickness after air diving
S. Kol, Y. Adir, C. R. Gordon, and *Y. Melamed* 147

Case Reports

Air embolism with bilateral pneumothorax after a five-meter dive
I. Friehs, G. M. Friehs, and *G. B. Friehs* 155
A case of breath holding and ascent-induced circulatory hypotension
P. Radermacher, C.-M. Muth, B. Santak, and *J. Wenzel* 159

Technical Communication

Assay of inert gas contamination in studies of hydrostatic pressure effects
M. Li, S. K. Hong, C. V. Paganelli, and *P. M. Hogan*

Abstracts

From current literature 171
French translations 177
Spanish translations 180

No. 3, September 1993

Skeletal muscle metabolic enzymes are altered by hyperbaric oxygenation treatments
A. G. Nelson, E. G. Wolf, Jr, P. O. Bradshaw, C. M. Hearon and *B. Li* 189
Effect of a single exposure to hyperbaric oxygen on blood mononuclear cells in human subjects
N. Bitterman, H. Bitterman, A. Kinarty, Y Melamed, and *N. Lahat* 197
Are beta-endorphins and thermoregulation during cold-water immersion related?
E. L. Glickman-Weiss, A. G. Nelson, C. M. Hearon, F. L. Goss, and *R. J. Robertson* 205
Effects of prolonged CO_2 inhalation on shivering thermogenesis during cold-water immersion
V. Lun, J. Sun, T. Passias, and *I. B. Mejavić*
Moderate hypercapnia: cardiovascular function and nitrogen elimination
D. Anderson, J. George, and *C. E. G. Lundgren* 225
Relationship between venous bubbles and hemodynamic responses after decompression in pigs
A. Vik, B. M. Jenssen, O. Eftedal, and *A.-O. Brubakk* 233

Clinical Communication

Hyperbaric oxygen as prophylaxis or treatment for radiation myelitis
J. J. Feldmeier, J. D. Lang, S. D. Cox, L. J. Chou, and *V. Ciaravino* 249

Book Review: *Basic decompression theory and application* 257

Abstracts

From current literature 259
French translations 269
Spanish translations 272

No. 4, December 1993

Complement activation during saturation diving
D. M. Stevens, S. L. Gartner, R. R. Pearson, E. T. Flynn, R. B. Mink, D. H. Robinson, and *A. J. Dutka* 279
Absence of intravascular bubble nucleation in dead rats
Y. C. Lee, Y-C. Wu, W. A. Gerth, and *R. D. Vann* 289
Continuous pulse oximetry in the breath-hold diving women of Korea and Japan
K. S. Stanek, G. P. Guyton, W. E. Hurford, Y. S. Park, D. W. Ahn, J. Qvist, K. J. Falke, S. K. Hong, K. Kobayashi, H. Kobayashi, and *W. M. Zapol* 297
Failure to reduce body-water loss in cold-water immersion by glycerol ingestion
D. A. Arnall and *H. W. Goforth, Jr.* 309

Clinical Communications

Hyperbaric hyperoxia enhances the lethal effects of amphotericin B in *Leishmania braziliensis panamensis*
K. H. Muhvich, L. H. Anderson, D. W. Criswell, and *W. J. Mehm* 321
Hyperbaric oxygen as an adjunctive treatment for severe laryngeal necrosis: a report of nine consecutive cases
J. J. Feldmeier, R. D. Heimbach, D. A. Davolt, and *M. J. Brakora* 329
Hyperbaric oxygen and the cancer patient: a survey of practice patterns
J. J. Feldmeier, R. D. Heimbach, D. A. Davolt, and *M. J. Brakora* 337

Review

The contribution of neurophysiologic techniques to the investigation of diving-related illness
A. W. Murrison 347

Technical Communication

Evaluation of a hyperbaric system for use in conjunction with a fluorometer
J. S. Colton, Y. Grossman, K. Miller, and *S. L. Pocotte* 375

Letter to the Editor: Pluronic-F68 and venous gas
B. D. Butler 383

Abstracts

From current literature 385
French translations 395
Spanish translations 399
